

VOLUNTEERS WANTED_ ReDI School Munich

ReDI Values Playful. Caring. Useful. Reliable.

Mission_

Our mission at ReDI School is to break down barriers and connect the leaders of tomorrow with dignity and humility. ReDI School is a volunteer-based organization that could not live without the amazing power of our tech community, where our volunteers teach, mentor, and support our students along their integration path. This way we can offer all our classes without any fee!

About our Students_

We have students of very diverse backgrounds and nationalities from across the world. Most of our students have a migration or forced migration background and are looking for a new start in Germany. They need people like YOU to support them on that journey.

Reasons for volunteering in Munich_

- You believe that the people have an unlimited capacity to evolve and learn
- You are looking for a new challenge and an opportunity to grow
- You want to make a difference as a part of a committed community that empowers
- ReDI offers a great opportunity to network within the Munich tech industry
- We have a diverse community with great people from all around the world!
- You have access to events with our partners: E.g. FC Bayern, City of Munich, and many more
- You know from experience what is the role of the teachers, tutors and mentors in our life
- **The lack of formal teaching education or experience is not a limitation, we see it as an amazing opportunity: The students have access to practitioners and experienced self learners like you and this could be a changemaker**

- It is fun and you might even meet loads of new friends!

Opportunities for volunteering_

Facts about our upcoming Spring 2022 semester:

- We are looking for volunteers who want to **teach** (support the learning) in the **Digital Career Program, Digital Women Program and Digital Youth Program**. This is where we really need the most support and it provides the most rewarding experience!
- Our **semester lasts 3 months from mid March to mid June**. Part of the volunteer experience as a teacher is **1 ½ months of onboarding**, including training and semester preparations (from the last week of January on a weekly basis) and closure activities and retrospectives after the last day of the classes.

Courses and Programs_

Digital Career Program ▶

The goal of this program is to prepare the students with practical skills that will support them in getting an entry-level job in the tech industry after successfully graduating. Our courses focus on Introduction to Computer Science, Web Development, Data Analytics, Cloud Computing and UX Design. Check out our curriculum: [Digital Career Program | ReDI School \(redi-school.org\)](https://www.redi-school.org/digital-career-program)

Digital Women Program ▶ Digital Career Program | ReDI School (redi-school.org)

The goal of this program is to empower women through digital education. We provide training in digital skills for life and work to foster social inclusion and employability. Our courses focus on Computer and Internet essentials on different levels (digital literacy) and Introduction to Computer Science where we provide basic programming skills. When courses are on-site, we offer childcare services. Check out our curriculum here: [Digital Women Program | ReDI School \(redi-school.org\)](https://www.redi-school.org/digital-women-program)

Digital Youth Program ▶

The "Digital Youth Program" empowers young people between 10 and 17 years old with little digital knowledge through digital education. Anyone who can surf the Internet safely, master digital tools and know the most important Office programs will find it easier to include themselves in Germany, to find a job and to start a career. Check out our curriculum here: [Digital Youth Program | ReDI School \(redi-school.org\)](https://www.redi-school.org/digital-youth-program)
