Arbeitsmarktintegration - Studentisches Feedback

Dear Khaled ,

Thanks for the email. I got a trainee Job in my core area(Telecom). I have attended many Interviews and only reason behind ReDi school. It was a great Platform for people like me. ReDi helped me to improve my soft skills as well as technical skills.

I am very happy to share with ReDi school organisers and special thanks to you. You motives the people , who are struggling to find further steps.

My heartly thanks to ReDi school .

Thanks for your support and efforts.

Sophie 11:20 Uhr
Message from Tung Nguyen:
Hallo Sophie, I hope that you and the community are doing well. I just want to let you know that I have received the offer from SAP. In the current situation, my feeling is a bit unusual, but still grateful and happy that I made it. Thank you and ReDi so much! Without the community I wouldn't have accomplished it. I do wish that things are getting better soon..

❤️ 5   🧑 1   🙂

I talked with Ivan because for the last 2 weeks I´ve been with a tremendous load of work. I was participating at one online event that consumed all of my time.

But still I will participate at the HR Summit. Btw. I´ve got an Internship for this semester thanks to the last HR summit. Im working for Mentessa :)

Huurrrra - Microsoft Munich hired guy mbilizi and he started last week!!! They met at last HR Summit :-)

🎌 5   🎉 2   🙂

*Good afternoon,

Hope you're doing great too.

I have some updates about my interview with facebook. I did not get the offer, but it was a great experience. I'm glad I got a chance to interview with them.

I had a total of 3 technical interviews, all of them online. After passing the first, I was forwarded to the second, then 3rd. It took a total of 4 weeks from the time of my first contact with the recruiter to the day of my final result. The total was 5 interviews (3 technical & 2 recruiters'). It was generally a great experience because I got to learn a lot in an incredibly short time. It improved my confidence too, getting a chance to interview with a big company.

The recruiter explained to me why I did not qualify, she told me that I performed really well in the algorithm interviews but I failed to make it in the system design interviews. She told me that I shall need a lot of practice to pass such interviews if I am to interview with a big company again. Such system design interviews are not commonly required in average companies though.

It has been a great learning experience and I am grateful to you for your assistance and motivation. I am currently still at my job as a junior angular developer at a startup in Munich. i shall put in more effort to read hard and practise. I hope to apply to big companies again after like one year.

Thanks Sophie, Birgit and Christa, and the ReDi team at large.

Regards,
Baker* (bearbeitet)

Hi Ale, thank you for your interest 🙂
I have been to another virtual job fair before but this one is faaar better, so congratulations and thank you.

I had a 1:1 with Salesfive for about 10 minutes and will be forwarding my CV to them. I joined the booths for Accenture and SocialBee and talked to them and will apply to their programs. I have a 1:1 with GULP at 3:30 and with CGI on Monday. I am now listening Microsoft about their training program.

So it is going really great, thank you very much and see you tomorrow.
Gökce

Hi Alejandra, I hope your holiday was great and I wish you a happy new year. I just wanted to let you know that I had a contact with Social Bee at the ReDi job fair and applied for their SAP program. I got accepted and will begin in February. It will be a 3 month program which will be followed by a one-year work contract as technical consultant at one of partner companies of SAP 🙂 I am really excited about this opportunity and would like to thank you and the team again ❤️

Ihr Lieben vom Team ReDI Munich,

zuerst mal: Gratulation zur gewonnenen Ausschreibung! Ehrlich gesagt, waren wir aber gar-
nicht so sehr überrascht. Weil ihr einfach großartig seid!
Für euer Engagement, eure tollen Ideen und kreativen Lösungen, wie ihr mit den Herausforde-
rungen durch Corona umgegangen seid und eure vielfältige Unterstützung bei all unseren klei-
neren und größeren Anliegen in diesem bewegten Jahr möchten wir uns ganz herzlich bedan-
ken!
Als kleine symbolische Anerkennung senden wir euch zudem die München-Anstecker, die wir
bereits im Namen des Referenten an die ReDI-Volunteers verschickt haben.

Wir freuen uns schon auf die weitere Zusammenarbeit mit euch, wünschen allen geruhsame
Feiertage, Gesundheit und ein erfolgreiches neues Jahr.

Bülent   Horan
Padon

Bei Fujitsu engagieren wir uns tagtäglich dafür, Diversität und Inklusion zu fördern. Die ReDI School of Digital Integration ist eine großartige Organisation, die wir seit zwei Jahren unterstützen und dabei helfen, diversen Tech-Talenten den Weg in die IT-Branche zu ebnen. Was Zukunft schon heute braucht ist ein Mindset für den Umgang im digitalem Wandel, Freude am Entdecken und lebenslangem Lernen. Digitale Kompetenzentwicklung gewinnt zunehmend an Bedeutung. Tech-Wissen und Soft-Skills spielen hier wichtige Rollen, während Coaching und Mentoring zentrale Schlüssel für einen erfolgreichen Karrierestart sind. Die ReDI School ist professionell aufgestellt und leistet einen enorm wichtigen Beitrag, um gesamtgesellschaftlich digitalen Wandel erfolgreich zu gestalten. Das motiviert uns, das ReDI Team und die Studenten langfristig zu unterstützen.

Liebe ReDI-Kolleginnen,

das war ein schöner Round Table. Ich war positiv überrascht, das Herr Baumgärtner die ganze Zeit dabei geblieben ist und auch die Beteiligung des Jobcenters hat viel Symbolkraft. Das Committment der Partnerunternehmen aus der Münchener Region ist eindrucksvoll. Das habt ihr toll hingekriegt.

In der Anlage schicke ich euch die Aufnahme und noch eine Kopie der Präsentation, die ich verwendet habe.

Herzlichen Gruß

Carsten

Mihai Veres 3:51 PM
Hey Christa just got the letter from the city hall... I need to wait for my partner to come home and translate but I saw the pin and saw ReDI and am overwhelmed by the gesture... thank you so much 😊

I never got any recognition for my volunteer work back home from any officials, so to have this as a foreigner in a relatively new country, barely knowing the language, I am deeply touched.

This, our students, and you guys have all made me feel appreciated and loved during these times and I think this is the best thing anyone can ever hope for when signing up for something like this.

C Christoph Zeckra I am enjoying your Demo Day - It`s so inspiring ! But now : Let`s grab a soft drink and maybe a snack...these are long days
